

COOLING • HEATING • AIR QUALITY SOLUTIONS

Solenco Comefresh CF8500 Air Purifier

The Solenco Comefresh CF8500 Air Purifier system offers extremely high air filtration efficiency capturing up to 99.97% of particles including allergens, pollen, dust, smoke and pet dander.

This is done by means of an advanced multi-stage cleaning system:

- Pre-filter (removes the large airborne particles)
- True HEPA filter (removes particles from the air as small as 0.3 microns – smaller than the eye can see)
- UV-C Lamp
- PCO
- Carbon filter (removes smells and odours)

5-STAGE PURIFICATION SYSTEM

FEATHER-TOUCH CONTROLS

SOLENCO

COOLING • HEATING • AIR QUALITY SOLUTIONS

CAN ALSO BE USED IN A COFFEE SHOP / DOCTOR'S ROOMS / SPA ETC....

With its ability to capture and destroy bacteria and viruses the Solenco Comefresh CF8500 Air Purifier comes highly recommended to protect public facilities, doctor's rooms and hospital rooms for patients. It further reduces VOCs, toxic fumes and foul odours.

Unlike many portable air purifiers, the Solenco Comefresh CF8500 Air Purifier is extremely quiet (less than 30dB on low speed and less than 50dB on high speed) and can treat the air of spaces between 20 to 40m².

The Solenco Comefresh CF8500 Air Purifier features feather-touch controls that enable you to quickly and easily change the settings as you run your fingers over the panel.

The enhanced charcoal and HEPA filters on the Solenco Comefresh CF8500 have a rubber gasket seal to ensure that no air leaves the air purifier uncleaned.

Breathe the difference with Solenco Comefresh Air Purifiers brought to you by Solenco SA.

Key Features

- Innovative tower design
- Feather-touch controls
- Energy-efficient (only 50 watts)
- 5-stage purification system
- Traps up to 99.97% of particles
- Kills bacteria and viruses
- Reduces VOCs, toxic fumes and odours
- 3 speed settings
- Timer with 3 settings (2hr, 4hr and 8hr)
- Filter Replacement indicator

**This product has received the Seal of Approval from the Allergy Foundation of South Africa. It has been scientifically tested by AFSA and/or independent laboratories to prove its efficiency at reducing or removing allergens from the environment. Due to patient variation, however, use of these products cannot be guaranteed to reduce symptoms in all allergy sufferers.*

Technical Specifications

For rooms	Up to 40m ²
Remote control	No
Sound pressure level	30dB (L), 40dB (M), 50dB (H)
Power supply	230V/50Hz
Power consumption	50W
Air flow	230m ³ /hr
Filter	3-in-1 (Prefilter, HEPA, Carbon), UV-C Lamp and PCO
UV Light	Wavelength 254 nanometres
Lamp life	Approx. 20 000 hours
Dimensions (w x d x h – mm)	390 x 145 x 428
Nett weight (kg)	4.5
CADR Rating:	>125cfm (0.1 micron M AHAM Standard)
